SCULPT WALL ART WAVE

Sculpt Wall Art questions the idea of traditional wall pictures, in the search for a new way to express artistic intentions. The pictures draw on inspiration from brutalistic design and concrete architecture as the main source of inspiration.

Each piece is handmade from a sustainable concrete-like material of recycled newspapers, sand, and chalk powder, combining artistic work with sustainable production methods.

Sculpt Wall Art comes in 3 different shapes and can easily be hanged on a wall with screw and brackets on the backside.
