BIG FOOT BENCH

At first glance the Big Foot collection looks heavy and dense, yet on further inspection, the fiber concrete bench, side tables and coffee table are lightweight and mobile.

With nods to brutalist architecture and the world of contemporary sculpture, the cylinder-shaped legs and textured, painted surfaces makes the collection stand out in the crowd.

All products are cast in lightweight fiber concrete to create a unique textured surface and increase mobility. Each piece is hand painted with multiple layers of paint, creating a strong and resistant surface
