RUIN VASE FAT

Like the name suggests, the Ruin vases are inspired by archetypical ruins and the classical shapes still adorning the landscape as a reminder of what once was.

Perfect for growing plants, the tower-like design has different openings that hides and reveals the plant, while also creating a construction that provides room to grow. A large opening on one side easily fits a plastic pot, without being seen from other angles.

The Ruin vase is equally suitable for dried flower decorations or as a stand-alone art piece.

As it is a hand glazed natural product, the colours may vary slightly and it is not waterproof safe.
