

INTRODUCING CAST BATHROOM COLLECTION

Buster + Punch launches its first full bathroom range, using its latest look CAST as its foundation. The brand's trademark use of solid metals and precision detailing runs through the collection, with smooth and rough elements giving tactile glimpses of the processes behind each piece.

TOWEL RAILS, TOILET ROLL HOLDERS, MIRRORS, SHELVING, HOOKS, SOAP BOTTLE HOLDERS, SHOWER DOOR PULLS, VANITY UNITS and WET-RATED HARDWARE combine effortlessly to help you create a look that's cohesive and undeniably original. The casted elements take inspiration from industrial pipeworking and plumbing fixtures, often hidden from view. In this new context, they become a unique celebration of material refinement.

"The bathroom is one of the few rooms in the home where using complementary details in one material or finish lifts the interior to the next level. The CAST finish lends itself to this, with the balance of softness and roughness in the collection bringing the look together effortlessly."

MASSIMO BUSTER MINALE

Founder and Creative Director, Buster + Punch.

The collection's CAST knuckles, refined by hand, make this a stand-out range of pieces in which no two products are the same. Combined with the brand's precisely machined solid metal elements, the casting tells a tale of material rejuvenation – a fitting narrative for this particular space. Customers will catch their first glimpse of CAST Bathroom in the groundbreaking House of Buster + Punch campaign launching on screens big and small this Spring.

NOTES TO EDITORS.
